THE NEW LEADER.

Senator Jones steps o the front as the champion of auti Chinese leg falation in place of Sargent, whose term of office expired with the sea tion just closed. Of all men in the country fitted for the vacancy John \$40,000 for breach of contract, in P Jones is the man. No one better failing to furnish the copy of his analerstands the question, and there are none more capable of placing it in its proper light. As soon as the fextra session convenes Jones will introduce a bill in the Senate. The telegraph gives this synopsis of its of a paralysis of his vocal organs, main provisions: "The bill will be which renders him almost speechless. more carefully elaborated than the original measure reported by Willis of Kentucky. The humane feature of the vetoed bill will be preserve? in the new measure, and the restrictive clause will be so framed as to meet the obligations made as to interference with the treaty rights. It is claimed by the advocates of the anti-Chinese legislation that the Pre-ident's veto of the Chinese bill was directed against the proposed notice of the abrogation of articles five and at the powers of Congress to legis late for the exclusion of an objectionable class of immigrants, indeed they claim it to be the virtually acknowladged right and duty of Congress to do this, therefore a new proposition is to be made to conform to the Pres ident's views, as expressed in the veto message, under the belief that he will sign it. Friends of the measure claim that the Chinese Embassav in this country, speaking for its Government, fully concedes that there is no necessity of involving our treaty relations in this controversy. but that this Government, through its legislation has the right to take in, he is known to have been in sev such action as will suppress the immigration of contract laborers held under debts or liens Jones, in addition, in presenting the Restrictive bill, will offer a resolution requesting the President to open negotiations at once with the British Government for more restrictive regula tion of the Hong Kong traffic, with a view of getting some immediate relief. He will ask the State Depart ment to cause special inquiry to be made through consular officers, or other agencies in China, in regard to the truth of the statement so posi tively made by California that the lien over Mongolian laborers brought cinto this country is made effective in China by a system of family enslave ment, by which the poen has to work out the lien to the Six Companies after his arrival here. The object of establishing officially this fact, if it be true, is to give to this Govern ment grounds upon which to make a diplomatic appeal to the Pekin Gov ernment calling attention to the un just nature of such a system, and urging it to assist in its anppression Another object in making these efforts, is to keep the relations between this and the Chicese Government upon a friendly basis, and to show that it is the desire of the United States to prevent ammigration only

THE California Fish Commissioners sent last Saturday 20,000 Eastern trout for distribution among several mountain streams in the vicinity of Donner Pass, among which are the North Fork of the American and the South Yubs on the western side East of the Sammit, Squaw creek. Cold Stream, the head waters of Donner creek, Little Truckee and Prosser creek will be supplied.

-of objectionable persons."

WM. E. CHANDLER writes a letter to the New York Tribune on the prospects of the new session, in which he says: "The Democrate, having a little rope, will bang themselves. Their revolutionary plans will be persisted in; the Republicans and the President will oppose them at every step, and the country will give the ver-

THE Lake County Bee takes time by the forelock and floats the name of Wm. Irwin to the breeze for the next Governor of California.

PRESIDENTIAL PREDELICTIONS.

The Glob-Democrat publishes the sentiment and preferences of mem bers of the Legislatures of Kansas, Wisconsin and Arkansas on presidential questions. Grant is decidedly the strongest man among the Repub licans, but the Democrats are divided between Tilden, Thurman and Hend-Control Pacific Hailroad, east of Sacramento, ricks, with perhaps a majority in

THE RICH CALIFORNIA SANKER.

When it becomes known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange, all the shrewd treaucters astened his course with keen interest to see how he would succeed The result has emphatical ty proved the wealthy bankers sagno and more promising field to operate ral stock combinations that paid immense profits. By the combination method of operating in stocks Mesers, Lawrence & Co., Buckers New York unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits prorata among shareholders every 30 days. Capital in any amount from \$10 to \$100 000 can be used with great success in these pools. *25 would pay \$100 profit. \$500 would make \$5,000 or 10 per cept. on the stock during the month M-sars Lawrence & Co 's new circular (mail ed free) gives "two unerring rules for success," and full particulars. so that any one can operate in stocks. and make money. Stocks and bonds wanted Government bonds supplied Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York.

PLUCKY little Rano takes the cinders out of her eyes, shakes the ashes from her garments and proceeds to dress beiself as prettily as of yore. Buildings are going up rapidly and b fore long this child of Nev da will lm as live y and prosperous as ever.-Sac. Bee.

LOSS PAID

O^V A POLICY THAT THE PREMIUM WAS NEARLY FIVE YEARS OVER-DUE.

To the General Agent of the New England Mutua

Life Insurance Company, of Boston - DRAR SIB. The undersigned, friends of the late PBLEG BROWN, take pleasure in subscribing our names to the following facts, believing it just that the public should know the equity and beneficence of the Policies issued by your Company. Mr. Brown held Policy in your Company No. 29,585 for \$10 000, bearing date Nov. 14, 1867, upon which he had paid seven premiums, the last premium having been paid in 1973, and at the time of his death, which occurred Sept. 9, 1878 there remained due and unpaid the premiums for 1874, 5. 6 and 7. Your Company working under the Equitable Mussachusetts Lapse Laws, pays Mrs. Brown the widow, this day through Wm. Hickok, agent at Virginia City, the whole policy, less the unpaid premiums due, to wit: \$8.132.43. In doing this you have exemplified the beneficence of the Massachusetta Lapse Laws, and as the New England Mutual is the only Massachus its company doing business on this Coast, we therefore commend it to all who would provide against possible misfortunes as the only Company wherein the law of the State guarantees there shall be No Forfel are RENO, Washoo Co , Nevada, Feb'; 27, 1879. district.

[8. F. Post, 10th.] The disastrous fire at Rene, Nevada, on March 21; has brought that game little town into prominent no tion. Boarouly ten years ago its site was a barron waste of sagebrush and bowlders. The Central Pacific Railroad surveyors, in running the line through it, were struck with the peculiar good location for a town, and in conjugation with M C, Lake, a pioneer of Trackee mealows, (who many years before had lessted on the Truckes river at that point, builling a substantial tollbridge and notel, from the revenues of which be in a short time beginne very wealthy) laid off the present town site and sold the loss by auction. It being for a time the terminus of that railread and the shipping point for the mines at Virginia City and Gold Hill, the place rapidly grew. Hundreds of frame buildings went up, necessi tated by the proligious freighting basiness carried on verween that point and the mines over the Geiger grade. Long lines of prairie schoon ers, heavily laden, daily rolled out of the place, and the vast army of teamsters that centered there imparted to it a lively business appearance second to no place in the State. It was then in the high tide, of its prosperity, but the wave of travel and success which came to it in that manner as rapidly desappeared on

THE VIRGINIA AND TRUCKER BAILWOAD From that point, via Carson City, to Virginia. The substitution of the iron horse and freignt cars for the teamsters' trapes took away from it the trade of business turned. The town went down almost as studienty as it had risen. The long rows of unildinge began to be tenantless. and property valued at one time at suonsands conid not be so d for as many hundreds. As if to complete the ruin a fire in 1872 swept away its two principal basiness blocks, and lett its busines men s unned' and un certain waether to desert its falling fortunes or to rebuild. The local press, as usual in such cases, decided the question. Bith the JOURNAL and the Crescent, the latter since de funct, came to the rescue of the town, and by vigorous articles, which pointed out the natural advantages of Beno's location, dwelling on the rich cope of productive country to the North of it and to the South, and showing up the immense for une it

the completion of

original cost. Each day saw acres and acres of sagebrash land cleared and sown in that wonderfully profi a ble grass. The Comstock furnished a continuous market wherein it could be sold at good prices. Farmhouses dotted the val ley in every direction, and the mar chants of Reno gathered a rich har vest from their trade. The trade of the great Honey Lake valley, in Las sen county; of the Sierra valley, in Sierra county; of the many fertile valleys in Plumas county, all lying in California, was made tributary to far reaching Reno and aided it in becoming a lively local: metropolis. The immense tracts of timber lands lying in the Sterras, at whose feet rested, were opened up by the Pacific one of the wheels within the wheal of the bonesza company, and two mills were set at work but 12 miles from Reno, most of the supplies for which were furnished from that town and handreds of timbermen employed by that company swarmed into the town during the winter sesson

vine district, some eight miles north

west of the town. The mining

abundance there, the mill was for a

long time abandoned, however the town left to decay. Eastern capital ists, however, are negotiating for

some of the mines, and, it is under stood, will start the mill up anew.

Later rich discoveries have been

and left a share of their 'earnings to

its enrichment: One by one new mining discoveres were made, the at Carson on the evening of March first one of importance being in Pea-2∪th.

The Supreme Court has affirmed Was laid off there, a splendid mill built by the Poe Consolidated Min-Judge King will set an early day for ing Company, but, though some difhim to be hanged. ficulty in reducing the ore found in
